

Rhozet Carbon Coder Uninstall/Reinstall

1. Uninstall Carbon Coder using "Start>Programs>Rhozet>Carbon Coder>Uninstall Rhozet Carbon Coder".
2. Delete the following folders:
 - "C:\Program Files\Rhozet\"
 - "C:\Program Files\Common Files\Rhozet\"
 - "C:\Documents and Settings\All Users\Application Data\Rhozet\"
3. Using "regedit" delete the following registry keys:
 - "HKLM\SOFTWARE\Rhozet\Carbon Coder"
 - To use regedit:
 - Click 'Start' then 'Run...'
 - Enter "regedit"
 - Click 'OK'
 - Browse for the above key
 - **NOTE:** If you have not used Regedit before please contact Rhozet support. Deleting or modifying incorrect files can cause serious system damage.
4. Reboot - Very important!
5. Install Carbon Coder normally
6. Reboot - Very important!

FOR CARBON SERVER CLEAN UN-INSTALL, SEE THE "CARBON SERVER INSTALLATION AND CONFIGURATION GUIDE".
